1. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

2. Claims 1 through 16 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

In claim 1 line 1, the language "in particular a coffee machine" is indefinite as the language makes it unclear if a coffee machine has been clearly and positively recited.

In claim 1 lines 2-5, the phrase "in combination an automatically dosing, enclosed dosage device" is confusing. It is unclear from such language whether the "dosage device" is a part of some other element for automatically dosing or if there is a dosage device for automatically dosing comprising the elements following the recitation of the "dosage device."

In claim 16 line 1, the language "in particular in pressed form" is indefinite as the language makes it unclear if the cleaning agent must be in pressed form.

3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

4. Claim 16 is rejected under 35 U.S.C. 102(e) as being anticipated by Tamaoki.

Art Unit: 3653

The device of Tamaoki being for dosage of a solid cleaning in a drink machine is considered intended use.

5. Claims 1 through 15 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, second paragraph, set forth in this Office action.
